

Al fresco Baby

She likes wide open spaces, she loves the big outdoors,
She gotta' feel so wild and free, but I can't,... Take it...., Anymore

She's my, Alfresco Baby, she likes it in the open air
She's my, Alfresco Baby, if people see us she don't care
{she just don't care!}
But you can't close the curtains, when there ain't windows anywhere

She likes wide open spaces, she loves the big outdoors
She gotta' feel so wild and free, I can't take it anymore

She's my, Alfresco Baby, got mother nature in her blood
She's my Alfresco Baby, I'd try to stop her if I could
'Cause you can't turn the light out, when you are walking in the woods

She likes wide open spaces, she loves the big outdoors
She gotta' feel so wild and free, I can't take it anymore

She's my, Alfresco Baby, the bedroom ain't no good to her
She's my, Alfresco Baby, she likes to be seen and be heard
But you can't keep it secret, when someone's singin' to the birds

She's my, Alfresco Baby, she likes it in the open air
She's my, Alfresco Baby, if people see she don't care
{she just don't care!}
But you can't close the curtains, when there ain't windows anywhere

No you can't close the curtains,
When there ain't windows....
Anywhere

Alfresco Baby, Oh no!
