

Birds Don't Fly in the Rain

Lonely is learning the truth
The world on your shoulders
don't turn around you
Startin' out over again
You want it back now
Along with your friends

Birds don't fly in the rain
You gotta' learn to be patient my friend

Birds don't fly in the rain
You gotta' make,
Your own sunshine again

It's hard to make your own sky
When words don't add up
And the numbers won't rhyme
Fixin' those clouds will take time
So don't expect miracles
at your first try

Birds don't fly in the rain
You gotta' learn to be patient my friend

Birds don't fly in the rain
You gotta' make,
Your own sunshine again

So take it a step at a time
Cut out the crap in your life
Remember how it used to be
Up here with friends
Flyin' free

Birds don't fly in the rain
You gotta' learn to be patient my friend

Birds don't fly in the rain
You gotta' make,
Your own sunshine, yeah

You gotta' make,
Your own sunshine, yeah
You gotta' make

Your own sunshine again
Your own sunshine again
Your own sunshine again.
