

Sand in the glass

You can waste it
You can save it
You can make it
if you try

I do declare it
You can share it
If you can spare it
Then so can I

You gotta use it
Before you lose it
Try to do it with a smile
Yeah we've all got it
forget me not it
tempus fugit all the while

we're just grains of sand in the glass
No one knows how long it will last
slipping slowly or sinking fast
We're just sand in the glass

Just a moment I won't be a second
Just a second I won't be a minute
Just a minute, might be for ever

You can't beat it
Try to cheat it
But you can keep it
and so can I

You can spend it
use it to mend it
Don't comprehend it
and nor do I

You gotta use it
Before you lose it
Try to do it with a smile
Yeah we've all got it
forget me not it
tempus fugit all the while

we're just grains of sand in the glass
No one knows how long it will last
slipping slowly or sinking fast
We're just sand in the glass

Yeah
we're just grains of sand in the glass
No one knows how long it will last
slipping slowly or sinking fast
We're just sand in the glass
